Will you join us?

Demolition of the International School

The demolition of the old school is progressing well, though it took longer than expected. The asbestos removal is now complete, and the actual demolition is in full swing. Materials like wood, steel, and concrete are being sorted and removed separately. Instead of disposing of the concrete rubble, we're keeping it on-site to serve as a foundation for the new construction. This helps reduce waste and minimizes the need for new concrete. Materials are being taken out through the Glinkastraat entrance. Neighbors have received a letter with contact details in case they have any questions.

Environmental permit

On December 20th, 2024, Woonbedrijf applied for an environmental permit for the project. The Municipality of Eindhoven is expected to make a decision by the end of March 2025.

Design of Public Space

As mentioned in our last newsletter, the final outdoor space plan was presented to the Green Working Group on December 4th, 2024. It was also submitted to the municipality, which needs to approve it. They've already reviewed the design and provided feedback. Right now, we're finalizing the technical details. If needed, we will reconvene the working group. The municipality's final assessment is expected in February.

Zoning plan

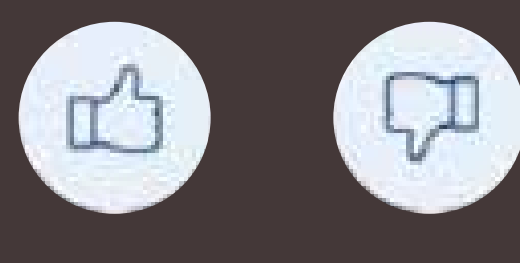

On December 24th, 2024, the Administrative Jurisdiction Department of the Council of State ruled on an appeal regarding the zoning plan "Gestel buiten de Ring 2020 (Humperdincklaan)", originally adopted by the municipal council on May 7th, 2024. The appeal was rejected, meaning the zoning plan is now final as of December 24th, 2024.
